UTILITIES & HEALTH AND SAFETY

ELECTRICTY

Our electrician will need to plan the event's electric requirements well in advance. We'll need to know your precise electricity requirements, e.g. Total kW or Amp draw, 240V, 3-phase.

- It's your responsibility to check the condition and draw of your appliances and equipment.
- Appliances/equipment that trip the circuit breakers due to faults or higher than advised draw will be disconnected.
- Electrical items not tagged will be tagged and tested at a cost of \$10 per item by the onside electrician on Friday during set-up. Please advise us of this prior.
- Stall holders who applied for power are asked to bring correct extension leads (either 10 or 15 AMP) for each appliance that needs power. We recommend 10 m extension leads
- · Power split boxes will be available behind stalls.
- A kind reminder to make sure ALL your equipment/appliances are already tested and tagged before the festival if possible. You can visit our recommended and preferred Boltz electrician workshop to do that beforehand.
- Limited test and tag services will be available on Friday during set-up, \$5-10 per item/paid cash. We recommend that ALL appliances are tag and tested PRIOR to the festival.
- We recommend ALL stalls bring along battery operated festoon/fairy lights etc to help build the ambiance on the Saturday night. Lighting is limited in Rundle Park and this will help us in the 7-10pm section of the night.

REFRIGERATION AND COOL ROOMS

Space for and in Cool Rooms is extremely limited.

If you require refrigeration during the weekend you must include details within your application. Small refrigerators may be used within the stall space but the electricity requirements must be noted in your application and will be subject to the electricity surcharge (\$50 for one outlet, \$20 for each additional outlet).

CLEANING

DURING THE EVENT

Please be reminded that stalls must be kept clean and neat at all times. Your stall spaces are 3x3m and no storage is allowed behind stalls where patrons have access. Food stalls along the East Terrace side, may have 1m extra behind but are asked to keep this tidy and covered from passerby view. We want the venue to be kept neat/clean and for the pleasure of all involved. There will be media around taking photos so it is important for your stalls to look great!

For stalls using oil etc, it is required that you place adequate flooring in your space.

Stalls are asked to honor the 3 bin system and dispose of their own waste in the main waste area in the north eastern corner. **Do not** use public bins during the day. We recommend you bring in 3 small bins for your stall for green, general and recycled waste items to transport to the common area. You also have the option to hire bins through us. See "additional costs" on the 'Payment Terms' page for more details.

POST-EVENT

All stalls must clean their space after the festival to leave the place the same way as you found it. Adelaide City Council imposes high penalty cleaning fees for those who leave the mess behind. We will pass those fees onto those stall holders who have left their space unclean, as per our agreement and Terms & Conditions. Site inspections (with photos taken) will take place before and after the festival to access that. We will also ban those who fail to clean and/or pay penalty fees from attending in the future. We highly encourage the use of floor mats in high mess areas.

ZERO WASTE AIM

We're aiming to be a zero-waste event. In order to reduce our environmental impact, we require ALL food stalls to use tableware that is compostable (not biodegradable). We may ask you to show us the proof (invoice/brochure) that the packaging you are using is truly compostable and not just biodegradable so we can make sure they can go straight in to the organics bins as planned. Plastic bottles, plates, and cutlery are NOT permitted at Vegan Festival Adelaide. You can also send us the information now so we can double check it prior to site inspections.

All stalls are asked to consider reducing use of products that can not be recycled or composted as much as possible.

We thank you so much for your understanding and supporting eco friendly actions.
